BARANGAY BUDGET MESSAGE

August 07, 2014

The Honorable Members
Sangguniang Barangay
Barangay Development Council

Ladies and Gentlemen:

Yesterday and tomorrow are great opposites. What has been done cannot be undone because we cannot go back to the past. So we look forward to the future and see what can be done because we have to make our choices today to effect the changes we wish to make in the shaping of our destiny as a community.

Today, the P 1,209,816.00 budget for our Barangay in FY 2015 that I am asking our Sanggunian to pass without delay and without deduction is designed to effect necessary changes and development to bring us closer to our practical vision of being a self-reliant and progressive Barangay.

Policy Thrusts for BY 2015

Our policy thrust for FY 2015 is focused to our barangay economy. We desire to reduce unemployment by 20% and at the same time increase our local revenue by 20%. We concentrate our resources to the economy because this is the only way to become self-reliant. We want our marginalized residents in the rural and urban areas to be focus of our investments. The policy measurers to support our FY 2015 budget are the following

1. Make our tax collection more efficient
2. Increase our local revenue by augmenting our fees for the use of barangay facilities
3. Give priority to the delivery of quality basic services to all constituents; and
4. Use of surplus or savings to priority development projects.

Estimated Income for BY 2015

Our estimated and realistic income for FY 2015 is more or less P 1,209,816.00 our share from internal revenue collection still is our number one source of income. It hugs almost 52% or a little more than a half of our total revenue. This is fairly better than our last year 65% of total income. We will continue to be more aggressive in the nest coming years by strengthening our local economy and making more efficient our tax and fees collection. It is expected that in the end of this decade we will turn the tide in our revenue structure and increase the share of our locally generated income to 70%, dwarfing our IRA share to a mere 30%. We shall pursue similar strategic policies on income generation in the coming years to attain our vision of self-

reliance in 5 years time. This cannot be achieved, however, without your strong and firm support in the execution of our policies.

Income Allocation for BY 2015

Our income, on the basis of our approved fiscal or budget policies gives premium to the delivery of quality basic services, which is allocated 52% as our biggest expenditure. This is followed by our governance and legislative services with 22.4%, the implementation of priority development projects with 10.4%, similarly the share of our Sangguniang Kabataan is approximately 10% and the balance of 5.2% is our budgetary requirement for calamity fund and other administrative cost. This percentage allocation of our income once confirmed and approved shall be maintained for the next five (5) years to emphasize our commitment to be more responsive in basic services delivery.

Expected Output for BY 2015

The main rationale why we exist in the Barangay is not to collect taxes or fees or to spend what we have collected. We exist because of the goods and services we provide to our constituents to make their life easier and happier to live.

For BY 2015 the expected results or major final output on goods and services of our barangay as laid out in our Annual Investment Program are as follows:

As a public servant, I humbly stoop and bow down my head to all my constituents whom I have pledged to serve until the end of my term. I have to deliver these basic goods and services and development projects to you as our stakeholders. If at the end of the day you don't find these services delivered, then you be the final judge.....on Judgment day.

Thank you and God Bless!
